	4.2.	Resit modalities	12

1. ABOUT THE EXAMS

1.1. PREAMBLE

The purpose of this document is to give you all the information regarding the organization of the Resit exams for the academic year 2024-2025. These exams are part of a global system specific to SUPINFO.

The exams are scheduled for the following session: Monday, June 30 to Friday, July 4 (except for the Bridge to Engineering class, which will be from Tuesday, July 1 to Wednesday, July 9). They will be held on-site for Physical campuses, and remotely for the Distance Learning campus.

During this exam week, no other educational activities are scheduled. In addition, students must inform the companies where they are doing their full-time internship that they will be partially absent during this period.

All educational resources are available on https://moodle.supinfo.com.

1.2. Validating a module with Resit

To validate a module and thus obtain the associated ECTS, a student must obtain a score of **10/20** (*50%*) or higher on the corresponding remedial exam. Resit exam has a score ceiling of 50% when displayed in transcripts. The compensation system by field loses its effect with the Resits: a grade of at least 40% and less than 50% at the Resit cannot be compensated, nor do effects apply if the field average then rises to at least 50%.

The students involved, pass the Resit exams for the modules to which they did not receive the ECTS as specified in the temporary transcripts or EDSQUARE. All modules can be retaken, **except for optional modules**.

1.3. PEDAGOGICAL COMMISSION

A pedagogical commission will be held during the July 7-11 week to assess the students' academic year. The commission's decision will be subject to validation of the remaining activities (xPROJ Resit and internship-related elements).

2. EXAM DETAILS

2.1. RESIT TYPES AND DURATION

The Resit exams are of two types, depending on the course module assessed:

• MCQ: 60 minutes

• Practical exam: 120 minutes

The special cases of **xPROJ** and **5LABO** will be detailed in the next section.

2.2. REGISTRATION TO RESIT EXAMS

No registration required; you will carry your Resits in self-service according to the modules you have not validated during this academic year. The previous course score will be overwritten by the new one following the rule described above.

3. TECHNICAL PROCEDURES

3.1. GENERAL RULES

As with all exams during the academic year, each student should carry his/her personal computer. The exams at SUPINFO are done via the https://moodle.supinfo.com platform. You should connect to it with your usual M365 login and password.

The scheduled day and time of the exam will allow you to access the subject of the relevant exam directly from this platform. It will show you how much time is left for the current exam.

Before the end of the exam, you will have to « *upload* » your submission via this same platform for practical exams.

3.2. MCQ

The MCQs will be presented in online format. You must answer on the https://moodle.supinfo.com platform.

3.3. PRACTICAL EXAM

You will need to follow the instructions and submission procedures specified in the subject. All submissions will have to be uploaded in the requested format. The submission itself will be done on the https://moodle.supinfo.com platform.

No submission will be accepted if it does not comply with the instructions, and it cannot be uploaded after the end time.

3.4. xPROJ SPECIAL CASES

The 1PROJ, 2PROJ and 4PROJ <u>individual</u> Resit projects will be available on **Wednesday**, **June 18, 9:00 AM (UTC/GMT +2)**, and must be submitted on Moodle by **Monday, September 1, 11:59 PM (UTC/GMT +2)**.

The 3PROJ <u>individual</u> Resit project will be available on **Wednesday**, **July 2**, **9:00 AM (UTC/GMT +2)**, and must be submitted on Moodle by **Monday**, **September 1**, **11:59 PM (UTC/GMT +2)**.

These projects only apply to students who have not validated the current end-of-year project module.

3.5. 5LABO SPECIAL CASE

To validate the 4LABO 2023-2024 and 5LABO 2024-2025 modules, students must have a total of 100 points over the 2 years. Students with at least 70 points but less than 100 will be required to take a 60-minute MCQ. Students with fewer than 70 points will take the aforementioned MCQ, plus a 180-minute practical exam.

4. PLANNINGS AND MODALITIES

4.1. PLANNINGS

The time displayed below is based on Paris time (UTC/GMT +2).
